UNICITY

Oasis

Restore, protect, and maintain beautiful, healthy skin with Unicity Oasis.

Skin is the body's barrier that faces the world each day. Today, stress, pollution, poor nutrition, little sleep, and dehydration are hyper-prevalent factors that can damage skin and cause premature aging. When skin is compromised, like most organs, it cannot properly perform its various functions. Amidst exposure to these damaging stressors, skin needs its own oasis—a welcome respite amidst an otherwise unforgiving environment.

Introducing Unicity Oasis—a refreshing, berry-flavored beverage formulated with hyaluronic acid, potent antioxidants, and marine collagen. The drink is designed to hydrate thirsty skin and help protect it from external aggressors—and it does all this from the inside out. Because just as beauty comes from within, so does optimal skin health.

Features

- Vitamin C
- Marine collagen
- Rich in antioxidants
- Hyaluronic acid
- Third-party tested

UNICITY

Oasis

Benefits

- Promotes the appearance of smoother skin and improves texture*
- Helps minimize the impact of free radical exposure and reduces oxidative stress*
- Reduces the appearance of fine lines and wrinkles*
- Helps achieve and maintain skin hydration, elasticity, and moisture*

Ideal for

- Those who are looking to improve and maintain skin health
- Those wanting to maintain skin hydration
- Those wanting to promote healthy skin-cell turnover and minimize the appearance of discoloration

Use

- Take one sachet with 8-10 oz (250-300 mL) of water once daily.

†Percent Daily Value is not established.

Other Ingredients: Maltodextrin, Erythritol, Natural and Artificial Flavors, Citric Acid, Malic Acid, Rebaudioside A, Sucralose.

Contains: Fish and Milk.

Ingredients

Hyaluronic acid — A substance naturally occurring in the body that holds around 1000 times its weight in water. Naturally found in skin, connective tissue, and eyes, hyaluronic acid (HA) keeps tissues lubricated and moisturized. HA also aids in collagen production.

Vitamin C (ascorbic acid) — A potent antioxidant that assists in natural skin regeneration and supports collagen synthesis. Vitamin C has been shown to help minimize melanin production (in vitro), which can lead to skin discoloration. Additionally, vitamin C positively impacts skin texture as well as hydration levels.

Marine collagen — A hypoallergenic protein with a low-molecular weight for easy digestion and absorption. This protein is rich in proline and alanine—amino acids that are essential building blocks for collagen in the skin. Marine collagen is sustainably sourced from post-food-production fish skin.

Oasis

Frequently asked questions

When is the best time to take Oasis?

Oasis can be taken at any time of the day. We recommend taking Oasis continuously as part of your daily routine for best results.

What type of collagen is used in Oasis?

Oasis contains marine collagen, a hypoallergenic protein with a low-molecular weight for easy digestion and absorption. This protein is rich with proline and alanine—amino acids that are essential building blocks for collagen in the skin. Marine collagen is also sustainably sourced from post-food-production fish skin.

What is hyaluronic acid and how does it support my skin?

Hyaluronic acid, or HA, is a substance naturally occurring in the body that binds to collagen and elastin. HA holds around 1000 times its weight in water. It is found naturally in skin, connective tissue, and eyes, and helps keep tissues lubricated and moisturized.

How should I store Oasis?

It is recommended to store Oasis in a cool, dark, and dry location.

Is Oasis safe for breastfeeding/expecting moms? Can children take this product?

We advise pregnant women and breastfeeding women to consult their doctor for advice on all nutrition matters, especially dietary changes. Also, Unicity does not test products on children, pregnant women, or nursing women; therefore, Unicity cannot recommend usage for these demographics.

Do you perform any testing on Oasis?

We test every lot of Oasis for heavy metals and microbiological components. We utilize independent, certified third party labs to conduct these tests. We do not conduct any testing on animals.

Is Oasis third-party tested?

Yes. All our products are tested by an independent third party to verify ingredient accuracy, purity, and safety. We do this to ensure you get exactly what we promise—nothing more, nothing less.
