

UNICITY

Oasis

Get the glow with Unicity Oasis.

Collagen and hyaluronic acid have become essential ingredients in anti-ageing skin care: the structural protein collagen is an integral part of the skin and ensures firmness and elasticity. Hyaluronic acid retains moisture and thus supports the firm, radiant appearance of the skin. But even the best creams and serums only work superficially!

Unicity Oasis is a refreshing, berry-flavored beverage formulated with hyaluronic acid, potent antioxidants, and marine collagen. The drink is designed to hydrate thirsty skin and promote a youthful, radiant appearance—and it does all this from the inside out.

UNICITY

Oasis

Features

Rich in
antioxidants

Hyaluronic
acid

Vitamin C

Marine
collagen

IFANCA
HALAL

Benefits

- Supports a smoother, firmer appearance of the skin.
- Helps reduce the stress from free radicals for the skin.
- Reduces the appearance of fine lines and wrinkles.
- Supports and maintains skin hydration.

Use

- Take one sachet (7.2 g) with 8-10 oz (250-300mL) of water once daily.

Ideal for

- People who understand nutrition is a part of skin care.
- Individuals who want to maintain the youthful appearance of their skin from within.

Other Ingredients: Maltodextrin, Erythritol, Natural and Artificial Flavors, Citric Acid, Malic Acid, Rebaudioside A, Sucralose.

Contains: Fish and Milk.

Hyaluronic Acid: Hyaluronic Acid is a substance naturally occurring in the body that holds around 1000 times its weight in water. Naturally found in skin, connective tissue, and eyes, hyaluronic acid (HA) keeps tissues lubricated and moisturized. HA also aids in collagen production.

Vitamin C: Vitamin C contributes to normal collagen formation for normal skin function and helps protect cells from oxidative stress.

Marine collagen: Marine collagen peptides help reduce the appearance of wrinkles and support a firm skin appearance. Marine collagen is sustainably sourced from post-food-production fish skin.

Oasis

FAQs

When is the best time to take Oasis?

Oasis can be taken at any time of the day. We recommend taking Oasis continuously as part of your daily routine for best results.

What type of Collagen is used in Oasis?

Oasis contains marine collagen, a protein with a low-molecular weight for easy digestion and absorption. This protein is rich with proline and alanine—amino acids that are essential building blocks for collagen in the skin. Marine collagen is also sustainably sourced from post-food-production fish skin.

What is Hyaluronic Acid and how does it support my skin?

Hyaluronic Acid, or HA, is a substance naturally occurring in the body that binds to collagen and elastin. HA holds around 1000 times its weight in water. It is found naturally in skin, connective tissue, and eyes, and helps keep tissues lubricated and moisturized.

How should I store Oasis?

It is recommended to store Oasis in a cool, dark, and dry location.

Is Oasis safe for breastfeeding/expecting moms? Can children take this product?

We advise pregnant women and breastfeeding women to consult their doctor for advice on all nutrition matters, especially dietary changes. Also, Unicity does not test products on children, pregnant women, or nursing women; therefore, Unicity cannot recommend usage for these demographics.

Do you perform any testing on Oasis?

We test every lot of Oasis for heavy metals and microbiological components. We utilize independent, certified third party labs to conduct these tests. We do not conduct any testing on animals.
