BioReishi Coffee

Featured ingredients

**Coffee:** Coffee naturally provides caffeine, which many people appreciate in everyday situations, such as when they need mental or physical energy. It also contains numerous plant compounds such as chlorogenic acids.

**Reishi mushroom extract:** The reishi mushroom, also known as “glossy ganoderma,” has been used for many years in various Asian countries as an ingredient in traditional applications. Reishi mushrooms contain characteristic mushroom-typical ingredients such as triterpenoids and polysaccharides, including beta-glucans, which contribute to their special profile.

# BioReishi Coffee

## FAQs

### **How much caffeine should I have each day, and how much is in BioReishi Coffee?**

In general, health professionals and experts consider four cups of fairly strong coffee (about 400 mg of caffeine) each day as safe for most people. Naturally, this will vary depending on the coffee type you drink. One sachet of BioReishi Coffee contains approximately 100 mg caffeine.

### **How much Ganoderma (reishi mushroom) extract is present in one sachet of BioReishi Coffee?**

BioReishi Coffee contains 400 mg of Ganoderma extract.

### **Can I add sugar and creamer to my BioReishi Coffee?**

BioReishi Coffee was formulated specifically so that you wouldn't need to add additional creamers or sugar.
