

UNICITY

Oasis

Get the glow with Unicity Oasis.

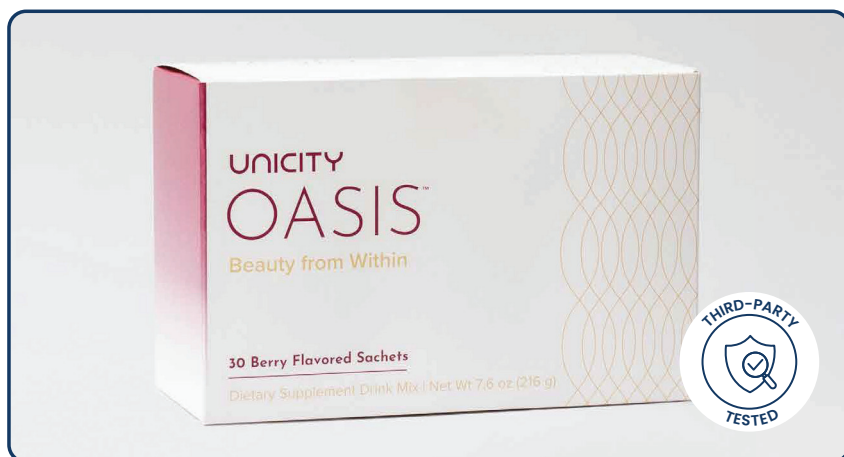

Oasis is a refreshing berry-flavored drink with hyaluronic acid, antioxidants, and marine collagen. Give your body supportive nourishment from within – with Oasis.

Collagen and hyaluronic acid are well-known components of quality skincare and nutrition. Collagen is a structural protein naturally found in the body and involved in the formation of connective tissue. Hyaluronic acid can bind water and helps maintain the moisture balance in body tissues. Unicity Oasis provides a convenient way to include these valuable ingredients in your daily routine – combined with vitamin C, which contributes to normal collagen formation for the normal function of the skin and helps protect cells from oxidative stress.

UNICITY

Oasis

Features

Hyaluronic
acid

Vitamin C

Marine
collagen

Benefits*

- With vitamin C to support normal collagen formation for normal skin function.
- Contributes to the protection of cells from oxidative stress.
- Pleasant fruity taste for daily enjoyment.

Use

- Take one sachet (7.2 g) with 8-10 oz (250-300mL) of water once daily.

Ideal for

- People who understand balanced nutrition is a part of skin care.

Other Ingredients: Maltodextrin, Erythritol, Natural and Artificial Flavors, Citric Acid, Malic Acid, Rebaudioside A, Sucralose.

Contains: Fish and Milk.

Hyaluronic Acid: Hyaluronic acid is a naturally occurring substance found in the skin, connective tissue, and joints. It can bind water and is commonly used in modern care and nutritional products.

Vitamin C (Ascorbic Acid): Vitamin C contributes to normal collagen formation for the normal function of the skin and helps protect cells from oxidative stress.

Marine collagen: Marine collagen is a protein with a low molecular weight, derived from fish, and contains amino acids such as proline and alanine. It is obtained sustainably from fish by-products of the food industry.

Oasis

FAQs

When is the best time to take Oasis?

Oasis can be taken at any time of the day. We recommend taking Oasis continuously as part of your daily routine for best results.

What type of Collagen is used in Oasis?

Oasis contains marine collagen, a protein with a low-molecular weight for easy digestion and absorption. This protein is rich with proline and alanine—amino acids that are essential building blocks for collagen in the skin. Marine collagen is also sustainably sourced from post-food-production fish skin.

What is Hyaluronic Acid?

Hyaluronic Acid, or HA, is a substance naturally occurring in the body that binds to collagen and elastin. HA holds around 1000 times its weight in water. It is found naturally in skin, connective tissue, and eyes, and helps keep tissues lubricated and moisturized.

How should I store Oasis?

It is recommended to store Oasis in a cool, dark, and dry location.

Is Oasis safe for breastfeeding/expecting moms? Can children take this product?

We advise pregnant women and breastfeeding women to consult their doctor for advice on all nutrition matters, especially dietary changes. Also, Unicity does not test products on children, pregnant women, or nursing women; therefore, Unicity cannot recommend usage for these demographics.

Do you perform any testing on Oasis?

We test every lot of Oasis for heavy metals and microbiological components. We utilize independent, certified third party labs to conduct these tests. We do not conduct any testing on animals.
