Balance

Orange

The smart solution to balanced nutrition.

Most people know that fiber supports digestive health. But in addition to aiding digestion, fiber can also help support weight management and healthy blood sugar levels. This is especially true for soluble fiber. However, the prevalence of processed foods and modern farming techniques has led to higher levels of sugar and lower levels of fiber in many of the foods we eat.

Balance is a pre-meal drink with a patented fiber matrix that includes bioactive plant compounds, polysaccharides, and micronutrients. The fibre matrix helps to promote healthy digestion and support the feeling of satiety. Balance contains important vitamins, minerals and soluble fibre to support weight management.

Features

- Biosphere Fiber: A proprietary blend of five soluble fibers
- Unicity 7x: A specialized blend of plant-derived polysaccharides
- Bios Cardio Matrix: A blend of plant extracts and phytosterols
- Convenient, on-the-go single-serving stick packs
- Naturally flavored
- Sweetened with sucralose, which is often better tolerated than stevia by those with sensitivities

Benefits

Fiber supports a longer feeling of satiety

Fiber supports healthy, regular digestion

Fiber supports normal, healthy blood glucose levels

Phytosterols contribute to the maintenance of normal blood cholesterol levels*

Fiber supports healthy weight management

Supports intermittent fasting

Use

For best results, take twice daily, 10–15 minutes before your largest meal. Mix each packet with 8–10 oz. (240–300 mL) of water. Mix vigorously in a shaker cup. Drink immediately.

Ideal For

- Adults looking to increase their fiber intake
- Adults who want to support normal blood glucose levels and healthy metabolism
- Those looking to support their weight-management efforts

Try this

Mix Balance with Lean Complete to get both high-quality protein and fiber.

Mix Balance with Oasis for added skin care benefits in your daily routine.

Mix Balance with Super Green + for added phytonutrient benefits.

Featured ingredients

Biosphere Fiber Proprietary Formula®

Biosphere is a unique blend that includes five different sources of fiber. Fiber causes the blood sugar level to rise more slowly after eating and less insulin is released.

Ingredients: Guar Gum, Gum Arabic, Locust Bean Gum, Pectin, Oat Fibres, Maltodextrin from Maize, Beta-Glucan.

Unicity 7X™

Unicity 7x is a specialized blend of plant-derived polysaccharides— also known as viscous fibers. Viscous, soluble fibers form a thick gel when mixed with water and as they move through the digestive tract. The gel-like substance helps slow the emptying of your stomach, which results in prolonged satiety.

Ingredients: Proprietary Blend of Plant-Derived Polysaccharides.

Bios Cardio Matrix™

Bios Cardio Matrix is a blend of plant extracts and phytosterols. Phytosterols contribute to the maintenance of normal blood cholesterol levels.*

Ingredients: Soy Concentrate, Sugar Beet Extract.

Bios Vitamin Complex™

The Bios Vitamin Complex is a unique blend that supports healthy metabolism. The blend is designed to aid in proper digestion and optimize the conversion of food to fuel.

Ingredients: Biotin, Calcium Carbonate, Folic Acid, Nicotinamide, Beta-Carotene, Thiamine Hydrochloride, Riboflavin, Pyridoxine Hydrochloride, Cyanocobalamin, Ascorbic Acid, D-alpha-tocopheryl Acetate, Zinc Gluconate, Chromium Picolinate.

Unicity is committed to develop products that are obsessively backed by science, rigorously tested, and masterfully produced—all to help millions around the world live better lives.

UNICITY

Balance

FAQs

How does Balance work?

Balance includes viscous soluble fiber. Viscous soluble fiber forms a thick gel when combined with water and as it moves through the digestive tract. The gel-like substance helps slow the emptying of your stomach, which results in prolonged satiety.

Why are there vitamins and minerals in Balance?

For effective digestion, the body needs numerous vitamins and minerals. The nutrients in Balance contribute to a balanced diet.

Can I take Balance at other times of the day or before having a snack?

Yes. Many people who use Balance find that they consume fewer snacks between meals, and if they indulge, they feel better afterward.

However, you will get the most benefit from using Balance before a meal.

Who can take Balance?

We recommend Balance for adults who want to maintain good health. Pregnant and nursing women should consult their physician before taking Balance. As with any nutritional supplement, if you have any questions, consult your healthcare provider prior to use.

I understand increasing fiber can impact my system. Will I experience bloating or any discomfort?

Introducing fiber (Balance) can increase gas or bloating in some people. This is a normal reaction as your body begins to acclimate to the increased daily fiber intake.

The effects should diminish after 2–3 weeks. If you're very uncomfortable, consider halving the portion of Balance you take before each meal for 3–7 days.

Can I still take Balance if I forgot to take it before a meal? Should I skip it if I already ate?

It is always best to have Balance before a meal, but it would be better to take it late rather than not at all. The soluble dietary fibers in Balance will still support your digestive health.

Can I take this product with less than the recommended amount of water?

One serving of Balance should be mixed in 8–10 oz. (240–300 mL) of water. Taking this product without the recommended amount of liquid may cause choking. Do not use this product if you have difficulty swallowing.

NOTE: This product contains natural ingredients; therefore, color may vary, and some ingredients may not dissolve as rapidly as others. This product may be taken with medications that are compatible with food.**

*The beneficial effect is obtained with a daily intake of at least 0,8 g of plant sterols/stanols.

**Nutritional supplements are not a substitute for a varied and balanced diet and a healthy lifestyle.

Unimate

Ultra-concentrated
yerba mate drink mix

There are some days when you feel like you're on top of the world—it's those kinds of days where you accomplish more, and you do it with style. Other days, your brain feels foggy, and you can't focus. So what makes the difference? How can you make every day a great day?

Unimate helps make great days the rule, not the exception.

Yerba mate comes from a plant native to South America, where it has been consumed in community rituals for hundreds of years. Naturally rich in antioxidants and nutrients, yerba mate has been traditionally used to promote mental clarity, endurance, appetite control, and an improved mood. The yerba mate leaves in Unicity Unimate undergo a unique five-step process—handpicking, fire roasting, extracting, concentrating, and purifying. The result is a proprietary extract that enhances the benefits of yerba mate and contains up to 10 times the amount of chlorogenic acids (feel-good elements) found in a typical cup of coffee and 20 times the chlorogenic acids found in other commercially available yerba mate products. No matter what daily tasks await, Unimate will support your cognitive function and endurance and help you feel great.

Choose Unimate, and choose to feel great.

The BioSelect™ Process

Unimate is uniquely powerful thanks to **Unicity's BioSelect™ Process**: select harvesting, bioactive preservation, precision refinement, bioactive concentration, and efficacy assurance.

Unimate

Features

High-quality, purified,
ultra-concentrated
yerba mate

Naturally
sourced flavors

When to use

- In the morning to kickstart your day and extend your fast
- Before a workout for clean, sustained energy
- Prior to meals
- Ahead of meetings, tests, or presentations for mental clarity and focus
- Anytime you need a lift to overcome fatigue or brain fog

Try this

- Enjoy Unimate your way—hot or ice cold—based on your personal preference.
- For a refreshing twist, add fresh mint and a touch of honey to any Unimate flavor.
- Mix with 2 cups of water and freeze into popsicle molds for a cool, energizing summer treat.

Unimate

Use

- Mix the entire contents of 1 stick pack with 500–700 mL of hot or cold water (add more or less to taste). Drink once a day or more often if desired.
- As Unimate does not break your fast, take it first thing in the morning for added satiety and energy support. You can take it again right before your first meal of the day.

Ideal for

- Individuals looking to boost mental clarity, focus, and mood
- Anyone battling brain fog or afternoon energy crashes
- Those practicing intermittent fasting who want support with sustained energy
- Busy professionals, students, and parents who need support with long-lasting mental stamina
- People seeking an alternative to coffee or energy drinks

Ingredients

Greena yerba mate leaf: Yerba mate comes from the leaves of the holly plant native to the central regions of South America. Yerba mate has been used by indigenous people for centuries. Yerba mate is a natural source of caffeine, and it contains a myriad of natural polyphenols, which have potent antioxidant properties.

Yerba mate contains naturally occurring:

- **Chlorogenic acids** – Chlorogenic acids are polyphenol compounds found in plants and seeds, such as yerba mate, green coffee beans, and tea. Chlorogenic acids are said to have a number of positive health properties. Furthermore, they are strongly antioxidant.
- **Mate saponins** – Mate saponins are a class of molecules that are specific to the yerba mate plant. They are particularly valuable secondary plant substances.

- **Theobromine** – Theobromine is a molecule that contains a structure similar to caffeine. It is perhaps best known as the mood-boosting molecule found in high-quality chocolate.

Unimate

FAQs

How much caffeine is in one serving of Unimate?

The product has been tested for an upper caffeine limit, and it has about as much caffeine as one cup of premium coffee. However, since natural ingredients can have some variation, the caffeine amount is not standardized.

Can I take Unimate with Unicity Matcha?

Yes, you can use both products at the same time. Both products contain caffeine, so caffeine-sensitive individuals would be well advised to not drink the beverages together or before bed.

Is this product compatible with ketogenic or other low-carb diets?

Unimate is ideal for the keto diet or other low-carb diets because it doesn't break your fast and helps you last longer until your next meal. This allows the body to enter the fat burning zone where it will eventually start to produce ketones.

How is Unimate different from Unicity Matcha?

Unicity Matcha mainly provides energy for the body, Unimate more of a mental energy. Matcha boosts energy, Unimate promotes improved mood, sense of well being and a feeling like you can accomplish anything.

Why can't pregnant or nursing women use this product? Can kids use Unimate?

Unicity does not test products on children, pregnant women, or nursing women. Therefore, Unicity cannot recommend usage for these demographics. It is also good to note that Unimate does contain natural caffeine, and many sources indicate that caffeine may not be good for pregnant women or young children.

What are mate saponins?

Mate saponins are a class of molecules that are specific to the yerba mate plant. They are particularly valuable secondary plant substances.

What are chlorogenic acids?

Chlorogenic acids are a family of polyphenol compounds found in plants like yerba mate, green coffee beans, and tea. They have strong antioxidant benefits.

What is theobromine?

Theobromine is a molecule that is similar in structure to caffeine. It is perhaps best known as the mood-boosting molecule found in high-quality chocolate. So theobromine is supposed to put you in a good mood.

What if I experience heartburn while on the Feel Great system?

If you are experiencing heartburn with Unimate, it could be that your stomach is more sensitive to caffeine intake or the flavor. Give your body a few weeks to adapt and in the meantime, avoid drinking additional caffeinated products. You may also try drinking Unimate slowly over a longer period of time, drinking a half serving, or adding more water when you prepare Unimate.

If you are experiencing heartburn with Balance, try reducing the size of your meals, eating more slowly to allow your body ample time to digest, or starting with a half serving while your body adjusts. These can help reduce bloating and reduce pressure on your stomach.
